

Name: _____

Date: _____

Per: _____

Key:

- Tropical rain forest ○
- Northwestern coniferous forest ○
- Temperate grassland ○
- Mountains and ice caps ○
- Temperate forest ○
- Tropical savanna ○
- Tundra ○
- Temperate woodland ○
- Tropical dry forest ○
- Taiga (Boreal) forest ○
- Desert ○

DIRECTIONS

In the space provided for each biome, list (in order) the names of the biomes and then fill in the information required in the chart. List at least two examples of plants and two examples of animals. The food chain must contain at least three organisms. Finally, for each biome shade in the area covered on the map using a different color or pattern for each biome. Fill in the key to show the pattern/color you are using. (refer to pp. 98-104)

BIOME	TEMPERATURE RANGE - general	PRECIPITATION (Range in mm)	VEGETATION (plants)	ANIMALS	Other Unique Characteristics	FOOD CHAIN
Tropical Rain Forest						
Temperate Grassland						
Temperate Forest						
Tropical Savanna						
Tundra						
Taiga (Boreal) forest						
Desert
